=====

Zombies are naught but  
rotting corpses, restored  
to a mockery of life  
through vile sorcery.  
Utterly devoid of any will  
save that which created  
them, they do share with  
the other undead an  
unnatural appetite for the  
gold and the flesh of the  
living. Shambling, slow  
creatures, they are easily  
destroyed or evaded by  
an experienced warrior,  
unless encountered in  
overwhelming number.
